EVENT SUMMARY

DS-ADC-2002: BASICS IN ENDODONTICS

The Sterilization for Dental Practitioners program is designed to provide dental professionals with essential knowledge and skills to ensure a sterile clinical environment. This comprehensive four-day course covers the principles, techniques, and protocols of sterilization crucial for infection control. Participants will learn to implement effective infection prevention measures, adhere to national and international standards, and maintain sterilization equipment for optimal performance. The program emphasizes hands-on training, offering practical sessions on using autoclaves, chemical disinfectants, and barrier methods. By the end of the course, dental practitioners will be equipped to enhance patient and staff safety, ensuring compliance with stringent sterilization guidelines in their practice.
