MALLA REDDY
INSTITUTE OF DENTAL SCIENCES

BASIC IMPLANTOLOGY

TRAINING & HANDS-ON WORKSHOP

Guest Speaker

Dr. Vishal Singh, BDS, MDS
Implantologist

Organized by:

DEPARTMENT OF ORAL AND MAXILLOFACIAL SURGERY

Venue: Lecture Hall, Second floor
Mallareddy institute of dental sciences

Date: 7th and 8th July 2023
Time 9.30 am to 4 pm

Dr. Vishal Singh

Periodontist and Implantologist

Qualification: BDS, MDS

Certification: International Workshops - Implantology

Professional Skills: Implant Dentistry

DR. Vishal Singh has graduated from Manipal college of dental sciences in 2007 and obtained the master's degree in periodontology and implantology in 2011 from Manipal University, Udupi. He was the best outgoing postgraduate of the department in 2011 at the University. He was awarded 2nd in poster presentation and 3rd in paper presentation at National level conferences. Since then gum related issues including esthetic and function, increasing longevity of existing dentition, and implant rehabilitation have been his area of interest and expertise in the last 10 years. During the course of his clinical practice, he has upgraded his skills by attending various Internationally acclaimed clinicians workshops and incorporated the same in his practice (Dr. Patrick Pallaci, Dr. Sajid Jivraj, Dr. Cho). He has international and national publications to his name during the course of his academic journey to become a professor. He has mentored the implant workshops in different parts of India and trained various persons in the field of implantology.

Program outcomes

This course is geared towards dentists who are starting to take their steps in implant dentistry. It is designed to provide clinicians with a thorough understanding of basic implant placement techniques and the bone grafting procedures. This course is a combination of in-depth lecture and hands-on workshop. Participants will be able to experience and practice implant placement on models. With a focus on practical learning and skill development, the workshop provided an invaluable opportunity for the budding implantologists to gain firsthand experience in the intricate art and science of dental implantology.

DIO IMPLANT
Renowned dental implants in over 70 countries
