

DEPARTMENT OF ORAL AND MAXILLOFACIAL SURGERY

INTRODUCTION

Oral and Maxillofacial Surgery is recognized a specialty amongst the medical & dental professions, this field addresses a wide range of problems involving the Head and Neck region, which have an impact on the overall health and well-being of an individual. The scope of this specialty is very extensive ranging from simple extraction of teeth to surgical removal of impacted teeth, pre-prosthetic surgery, dental implants, management of orofacial pain, maxillofacial space infections, pathologies & trauma, oral cancer, facial aesthetic problems like cleft lip and palate & temporomandibular joint disorders.

Specialized intensive clinical and surgical training in this field is mandatory to treat these complex maxillofacial problems and also effectively interact with other allied disciplines (general surgery, ENT, plastic surgery & anesthesia) to provide total care. Considering the complexity and multidisciplinary nature of the problems involved, continuous lifelong learning through scientific interactions and both basic and clinical research is required for better and more effective treatment solutions.

We train our undergraduate pupils to perform basic skills of clinical diagnosis and minor surgical procedures and to recognize & manage complications.

Through continued learning and excellence, the department in particular, and the college in general, strive at collaborating with centers of quality research, education and service, to provide sustainable levels of education, growth and development to our students and staff and above all our patients the best of our ability.

Name	DR.C.N.SRINIVAS, HOD & PROFESSOR
Qualification	M.D.S
Areas of interest	TRAUMA, ORTHOGNATHIC SURGERIES, TMJ, BONE PATHOLOGIES, IMPLANTOLOGY
Achievements	2 INTERNATIONAL & 5 NATIONAL PUBLICATIONS

Name	DR.ANITA D PARUSHETTI, READER
Qualification	M.D.S
Areas of interest	TRAUMA, ORTHOGNATHICS, CLP & RHINOPLASTY

Achievements	1 INTERNATIONAL & 3 NATIONAL PUBLICATIONS
--------------	---

Name	DR. K.R.PARAMESHWAR REDDY
Qualification	M.D.S
Areas of interest	TRAUMA, IMPLANTS & ORTHOGNATHIC
Achievements	1 INTERNATIONAL AND 2 NATIONAL PUBLICATIONS

Name	DR YOUSUF QURESHI MOHD
Qualification	M.D.S
Areas of interest	TRAUMA, ORTHOGNATHIC SURGERIES, BONE PATHOLOGIES & IMPLANTOLOGY
Achievements	1 INTERNATIONAL & 6 NATIONAL PUBLICATIONS

Name	DR. K. DAVID TYRO
Qualification	M.D.S
Areas of interest	TRAUMA, ORTHOGNATHIC SURGERY & IMPLANTS
Achievements	1 INTERNATIONAL PUBLICATION

Name	DR. K.ABHISHEK VAMSHI
Qualification	M.D.S
Areas of interest	T.M.J , SALIVARY GLAND DISORDERS, CLP
Achievements
